The dump contained several attacks from a noder.doc file. After data download it is safe to use it.It contains a lot of other threats to be removed. Thank you so much for trying to help! Q: Making sure every child sees its parent? If I have the following tree: parent1 parent2 parent3 parent4 parent5 parent6 And all of these children have a method(with parameters) called run() If I call run() on

---

parent1, how can I be sure parent2,3,4,5,6 all get the call? Or if run() doesn't work, is there a way to make sure any children of any parent (not necessarily the ones just walked) get the run() call? Using C++11 only. A
